- **Attachments:** Supports Klickfast, NVG, various magnetic and harness options
- **Infield annotation capabilities:** Optional

HALO LITE

- **Ancillary camera:** (Optional) connects via USB type C

HYBRID MULTI-DOCK

One Gigabit, fast charge – Innovative upload technology.

The optimal combination of customisation and ease of use, providing our customers with a BWV solution that not only self charges but offloads and uploads video evidence automatically.

With a magnetic self-locating charge base the Halo Horizon Series Hybrid Multi-dock is designed to simply guide the cameras into position for charge and footage offload to begin without the need for cables. Our cable-less multi-dock includes a 230V 50Hz power supply unit included.

**Every Halo Horizon Series BodyCam is supplied with a single charging dock.*

MEET YOUR HORIZON SERIES HYBRID MULTI-DOCK

HALO VAULT: DAMS

Our best-in-class Digital Evidence & Asset Management software.

For storing, viewing and streaming multiple media types all in one secure cloud-based environment. In other words, HALO Vault is a holistic digital security solution built for a world full of budget cuts and increasing demands of front-line staff.

Build one case in one place:

As a result of our experience in the body camera industry, we know not all customers will have the same storage requirements. Therefore, accessing Body Cam footage quickly and efficiently is crucial, but how about seamlessly integrating all of your other media files too?

- Ingest all digital media types
- Reduce paperwork
- Fixed data usage and storage costs

SAFE, SECURE & MOBILE

Not only covers BodyCam footage but other digital media types

100% cloud-based - Media can be viewed on any device, using any modern browser

Tiered access - All video access is audited with usernames, times and actions

A secure central storage area where videos and media files can be safely reviewed, streamed and shared

Easily mark and identify evidential video and media files

Files that are not considered to be 'evidential' in nature will be automatically deleted by the Halo Vault after a configurable period of time

Video clips and other media can be redacted using the built-in redaction engine in Halo Vault

Ability to play / download videos from the sharing portal - External users can access videos that have been shared with them, including viewing of metadata, safely and securely

CONTRACT WITH CONFIDENCE

Body Camera leasing solutions with ZERO upfront costs.

Reimagine Body Camera Technology with our fresh approach to procurement, technology and customer service.
